**St. Patrick's School Singapore Goes To The Philippines.** "St. Patrick's School students and teachers visited the community of Jaime Hilario Integrated School - La Salle last June 3. As part of their weeklong visit to De La Salle Zobel, Patricians woke up early to leave Manila and generously extended their help in preparing the school for the opening of classes. They carried tables, chairs and books from one building to another, took off shoes to wash the classroom floor and clean windows and walls together with our own students. After cleaning, they took time to play by the beach and share snacks with our teachers. We took a picture in front of the new school building to express our deep gratitude for the support we have received through these years from the Philippines and beyond. Truly, a LEAD-wide shared mission!" (Br. Aikee Esmeli)
