He will be attending the wedding of his niece, visiting the Brothers, his family and friends. He will be attending the jubilee celebration of Gus Boquer, Roly Dizon, Manny Hilado, Crisanto Moreno, Peter Foo and Harry Reynolds on the 10th of October and then fly back to Hong Kong before he flies out on the 13th. On the way back from his home leave, he will be attending the DENA Mission Assembly as an observer. This will be in preparation for our own LEAD Mission Assembly. In our Statutes, we are mandated to have a Mission Assembly before the end of the first term of the leadership.

We wish Tom a wonderful and relaxing time back home.
